fri-jado

making food irresistible

Fri-Jado: making food irresistible.

Pleasing the five senses: that's what it's all about when customers enter your store. Your deli or food-to-go department should therefore be a clear showpiece that provides a true food experience.

At Fri-Jado, we believe that an innovative and appetizing food experience can truly enrich any food retail environment. We provide food retailers around the world with the latest technology that makes their food products stand out. We engage their customers in the food preparation process with eye-catching front-cooking solutions. When it comes to fresh food presentation, our heated and refrigerated counters provide a crystal clear product view combined with perfect holding conditions.

Everything we do is about creating the best stage for our customers' products. We are convinced that creating maximum attraction through superior preparation and irresistible presentation is the most effective way to boost fresh food sales. Equally important, food retail equipment should have the lowest total cost of ownership. Hence, it is our passion to continuously improve the food retail experience with the latest high-quality technological innovations. At the same time, we realize that technology is just a tool. Putting our customers' products on stage is what we really do.

Why Fri-Jado?

Technology as enabler
Everything we do revolves around putting our customers' products on stage. We believe that creating maximum attraction towards food retail customers through superior quality and irresistible presentation is the most effective way to boost fresh food sales. Our technology is 'just' a tool that we developed around this philosophy.

Innovation
We are on top of new trends in technology, design and ergonomics with the aim of continuously improving the food retail experience. We regularly discuss the latest market trends and opportunities with our partners and international food retail customers. This is how we translate innovation into customer value in our products.

Highest quality
Providing value means providing technology that works, each and every time. All our equipment is developed and produced according to the highest standards. The result: first-class equipment with the lowest total cost of ownership in the industry.

Hot meets cold
The ultimate food experience combines both hot and cold products that are fresh, ready-to-heat or ready-to-eat. Our collection features products for hot and cold food preparation and presentation, which is unique in the industry.

Global network
We have been a reliable partner for food retail solutions since 1937. Our proven track record and solid international network of sales offices and local service partners provides a strong base.

Table of Contents

Counters

Boost sales!

Changes in consumer lifestyles have contributed to the increased popularity of grab-and-go products and ready-to-eat meals.

An appetizing product presentation is the key to **stimulating impulse sales** of these hot and refrigerated products. Our heated and refrigerated merchandisers have been designed with this idea in mind. Thanks to **excellent product visibility** and **superior holding technology**, products look irresistible and stay delicious for hours.

Your advantages

- Increase impulse sales
- Food quality and food safety
- Low operating costs

Convenience Counters 2 level - Hot

Increases food-to-go sales: excellent product presentation

Modular design: easy to install, adapt to any store format

Space-saving: ideal for areas with limited floor space

Flexibility: available in various widths as drop-in version or with underframe

Food safety, longer shelf life: superior holding technology

Modular Convenience Counter self serve (available from 1 May 2022)

Features
- 2 level heated open self-serve display cabinet
- Designed for packaged products
- 600, 900, or 1200 mm wide
- Soft closing sliding doors on operator side (backloading version)
- Slim shelves with adjustable angle
- Patented Hot Blanket holding technology
- Energy saving hot air recirculation technology
- Total display area:
  - MCC H SS 60-2:   0,44 m²
  - MCC H SS 90-2:   0,77 m²
  - MCC H SS 120-2: 1,06 m²

Available models
- Backloading
- Solid back (control panel customer side)

Optional accessories
- Castor set
- Bumper set
- Price rail set
- Front door set
- Merchandising accessories (see page 55)

Modular Convenience Counter self serve humidified with doors (available from 1 May 2022)

Features
- 2 level heated self-serve display cabinet with front doors
- Humidified to maintain the quality of unpackaged products
- Manual water fill (backloading version only) or automatic water fill
- 600, 900, or 1200 mm wide
- Soft closing sliding doors on operator side (backloading version)
- Slim shelves with adjustable angle and height
- Energy saving hot air recirculation technology
- Total display area:
  - MCC H SS FD 60-2:   0,51 m²
  - MCC H SS FD 90-2:   0,81 m²
  - MCC H SS FD 120-2: 1,12 m²

Available models
- Backloading
- Solid back (control panel customer side)*

*Can only be connected to an external water supply

Optional accessories
- Castor set
- Bumper set
- Price rail set

Modular Convenience Counter full serve humidified (available from 1 May 2022)

Features
- 2 level heated full serve display cabinet
- Humidified to maintain the quality of unpackaged products
- Manual or automatic water fill
- 600, 900, or 1200 mm wide
- Soft closing sliding doors on operator side
- Slim shelves with adjustable angle and height
- Energy saving hot air recirculation technology
- Total display area:
  - MCC H FS 60-2:   0,51 m²
  - MCC H FS 90-2:   0,81 m²
  - MCC H FS 120-2: 1,12 m²

Available models
- Backloading

Optional accessories
- Castor set
- Bumper set
- Price rail set

*See page 55 for Merchandising accessories Hot self serve models.

Fri-Jado created a range of high-quality interchangeable and compatible accessories to take food visibility and layout in its hot MDD and MCC self-serve units to the next level. These accessories are developed with packaged hot food in mind.

Condiment holder

The condiment holder can be used for cross selling or dispensing items such as napkins, bags or cutlery. Four dividers are provided which can be placed at various positions to create separate compartments. The condiment holder hooks to the raised glass edge at the front, which can be found on all MDD units and all MCC self-serve units with open front.

Merchandising racks

Merchandising racks can be used to angle products towards the customer for optimal visual impact and will increase the capacity of your counter. The rack will fit products up to 5 cm deep. Although racks can be used separately we recommended a shelf tray to fixate the position on your shelve. There are three sizes available to suit the different shelf depths.

Shelf dividers

Shelf Dividers can be used to to separate different products and highlight a clear divide between offers. Dividers can only be used in combination with a shelf tray. There are three sizes available to suit the different shelf depths.

Shelf insert trays

Shelf insert trays can be used to organize your products on a convenient location away from your counter. They also allow the positioning of dividers and merchandising racks in a most favorable way. Different sizes are available depending on unit width and shelf depth. On each MDD and MCC shelf, two insert trays will fit side by side. Please use the table below to select the required article.

Accessories	MCC Hot self-serve	
Description	**Compatibility**	**Number**
Condiment holder - only for self serve	MCC 60/90/120	9380198

Convenience Counters 2 levels - Cold

Increases food-to-go sales: excellent product presentation

Modular design: easy to install, adapt to any store format

Space-saving: ideal for areas with limited floor space

Flexibility: available in various widths and as drop-in model or with underframe.

Food safety, longer shelf life: superior holding technology

Modular Convenience Counter self serve (available from 1 May 2022)

Features
- 2 level refrigerated open self-serve display cabinet
- Designed for packaged products
- 900, 1200, or 1500 mm wide
- Integrated LED lights on each shelve
- Soft closing sliding doors on operator side (backloading version)
- Slim shelves with adjustable height and angle
- Mounting set for price rail on shelf
- Patented air guiding technology
- Top performer in energy efficiency based on R290 refrigerant
- 3M1 refrigeration classification
- Lowest possible energy consumption
- Total display area:
  - MCC C SS 90-2:   0,80 m²
  - MCC C SS 120-2: 1,10 m²
  - MCC C SS 150-2: 1,40 m²

Available models
- Backloading
- Solid back (control panel customer side)

Optional accessories
- Castor set
- Bumper set
- Evaporation tray

Modular Convenience Counter self serve with doors (available from 1 May 2022)

Features
- 2level refrigerated self-serve display cabinet with front doors
- Designed for packaged and unpackaged products
- 900, 1200, or 1500 mm wide
- Integrated LED lights on shelve
- Soft closing sliding doors on operator side (backloading version)
- Slim shelves with adjustable height and angle
- Mounting set for price rail on each shelf
- Patented air guiding technology
- Top performer in energy efficiency based on R290 refrigerant
- 3M1 refrigeration classification
- Lowest possible energy consumption
- Total display area:

  - MCC C SS FD 90-2:   0,80 m²
  - MCC C SS FD 120-2: 1,10 m²
  - MCC C SS FD 150-2: 1,40 m²

Available models
- Backloading
- Solid back (control panel customer side)

Optional accessories
- Castor set
- Bumper set
- Evaporation tray

Modular Convenience Counter full serve (available from 1 May 2022)
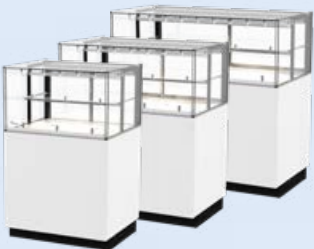

Features
- 2level refrigerated full serve display cabinet
- Designed for packaged and unpackaged products
- 900, 1200, or 1500 mm wide
- Integrated LED lights on each shelve
- Soft closing sliding doors on operator side
- Slim shelves with adjustable angle and height
- Top performer in energy efficiency based on R290 refrigerant
- 3M1 refrigeration classification
- Lowest possible energy consumption
- Total display area:
  - MCC C FS 90-2:   0,80 m²
  - MCC C FS 120-2: 1,10 m²
  - MCC C FS 150-2: 1,40 m²

Available models
- Backloading

Optional accessories
- Castor set
